DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Gunn (5,350,061).

Gunn discloses a device **10** comprising a pocket **12** defining a partially-enclosed space, wherein the pocket **12** includes two or more rigid walls **14**, **16**, a first length, a first width, a height, and a first side **18**; a longitudinal edge portion continuously attached to the first side of the pocket, wherein the longitudinal edge has the first length and a second width, wherein the first width is greater than the second width, and wherein the longitudinal edge portion is formed to include one or more through-bores **32**.

Regarding claim 2, see col. 6, line 25.

Allowable Subject Matter

3. Claims 3-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
